

Innovative learning solutions tailored to your needs

# ITS SmartStyle Training

In today's technology-oriented workspace we know you need to get the best from your people, your technology and your investment in both.

We have a proven track record in meeting the skills needs of local, regional and national employers, by providing quality cost effective training for organisations across all sectors, both on-site and from our training centres.

We work with you to identify real needs that are aligned to your organisational objectives. We deliver the appropriate mix of training across ICT, business and professional development. Whether you need "off-the-shelf" or bespoke training we match innovative learning solutions to your needs to ensure the right people have the right skills, and deliver maximum return on investment.

Areas offered include:

- ICT
- Business Skills
- Accounting & Finance
- Leadership & Management

We also offer a range of bespoke, scheduled and onsite training solutions including ICT with our Microsoft accredited trainers and management professionals delivering business skills.

To discuss your needs, and to find out more about the courses we offer, please contact us on:  
Tel: 01274 229445 Email: [enquiry@smartstyle.co.uk](mailto:enquiry@smartstyle.co.uk) or visit our website [www.smartstyle.co.uk](http://www.smartstyle.co.uk)

**SmartStyle have added value to our business. Their expertise and knowledge enabled them to very quickly understand our needs and create a training and development strategy that was right for us.**

**Lisa Coulam** - People Development Consultant, Costcutter Supermarkets Group

### **Training Services**

In addition to classroom based learning and development, we offer a number of supporting products and services which can be utilised in isolation, or combined to create a comprehensive and robust approach to learning and development strategy. Our solutions are designed to deliver flexibility and responsiveness; to ensure we deliver for you the right skills, to the right people, at the right time.

From customisable online skills gap analysis, through to fully managed training and project management solutions, SmartStyle offers a “one stop shop” for your organisation’s learning and development requirements. Our industry led training can be supported by flexible, bespoke e-learning solutions. Furthermore, we offer a full range of end user certification programmes for people who need to evidence their newly acquired skills.

Our mobile learning solutions provide flexibility for your organisation delivering training for groups of employees at their own premises anywhere in the UK, negating the need to invest in costly ICT training suites.

### **Courses**

We provide high quality, accredited end-user and technical ICT training, as well as an extensive range of business skills and professional development programmes.

Courses can be undertaken at our training centres, or on-site at your premises anywhere in the UK. We offer one of the most comprehensive and popular public course schedules in Yorkshire and Merseyside.

Instructor led training is accompanied by a comprehensive Learner Guide and certificate of training for each delegate. A buffet breakfast, catered lunch and refreshments throughout the day are provided for training delivered at our training centres.

Following attendance on any SmartStyle course, unlimited post course support is available, providing the reassurance that is often required when mastering new technology and skills.

Our Guarantee of Excellence means that if you are dissatisfied with any aspect of the training, we will reimburse the cost, or deliver the training again free of charge.

SmartStyle offer a number of innovative delivery options, which can be combined to create an exceptional learning experience for your organisation.

### **Sector Specific Training**

We are one of the country’s leading providers of learning and development for bespoke in-house systems. Whether for a large-scale national roll-out or additional support for your internal training team, our specialist delivery team can meet the challenge.

Our bespoke training solutions focus on real life working environments, delivering learning interventions for complex scenarios, often involving significant business change or integration issues. Our team are innovative, imaginative and committed to developing learning that makes a difference.

Our L&D Project Manager, Technical Author and/or a Lead Trainer work with your subject matter experts, sponsors, stakeholders and team members to rapidly understand your systems, business processes, policies and objectives. We develop imaginative solutions, appropriate for your business and budget, focusing on maximum skills retention and ensuring return on investment can be evidenced and measured.
